

Breathe pure air

Individual filter B 500 has been designed for small machine tools. It requires only 0.23–0.3 m² of set-up space and can be flexibly installed on or beside a machine. Developed for the energy efficient and powerful filtering of particles of up to 0.1 µm from air volumes of 300 to 500 m³/h – the optimum solution for oil smoke as well as oil and emulsion mist.
