

Pond-plus

Pond-plus is a customized natural microbial/enzyme product with specific strains for aqua bio remediation and maintain supreme pond & Lake Biota.

Applications

- Rivers & Lakes & Canals
- Lagoons & Ponds & Oxbows
- Natural & man-made water bodies
- Stabilization ponds

Benefit

- ✓ The effective natural way to establish and maintain cleaner pond and lake water without chemicals.
- ✓ The microbes in Aqua Clarifier help restore natural balance in situations where environmental factors have led to unstable and unhealthy water quality conditions.
- ✓ All-natural, premium bacteria and enzyme product designed to remove green water and reduce sludge.
- ✓ Once applied, it will immediately begin to multiply and work to remove harmful decaying sludge that has accumulated from years of fish waste, dead plants, leaves and many other organic materials, as a result an expensive process, dredging becomes unnecessary for the future.
- ✓ Eliminates pond scum and algae and helps eliminate foul odours.
- ✓ Digests excess organic matter in ponds, lakes.
- ✓ Once the harmful organics and nutrients have been consumed, the by-product of bacterial metabolism is harmless carbon dioxide.
- ✓ Helps maintain Lake/Pond natural eco balance.
- ✓ There are no pathogenic organisms, easy to feed, economical to use

Condition

- D.O \geq 2 mg/L
- Water temp: 15~45°C
- pH: 6 ~ 9
- Salinity <30000 mg/L

Composition

- Four Strain Bacillus Spore Blend and microbial carrier
- Light tan powder, Weak odor
- Bacteria count $>2 \times 10^{10}$ CFU/g

Caution

Do not mix with bleach, caustics, disinfectants or other chemicals.
